Modems and routers and Ethernet cables.  
Looking up info in technical tables.  
Tweaking my network for lightning-fast pings -  
These are a few of my nerdiest things!

Wi-Fi and Bluetooth both make my heart flutter.  
Soon I'll be making the switch to cord-cutter.  
Getting my TV through broadband that zings -  
These are a few of my nerdiest things!

When the Web's down -  
When my phone dies -  
When there's no Wi-Fi,  
I simply remember my nerdiest things,  
And then I just cliiiiiick, "Re-try!"

iOS updates flow into my iPad.  
Viruses never make my iMac feel bad.  
Time Machine keeps my stuff safe -- just in case.  
That's why there's always a grin on my face!

I'm sure Siri loves me, 'cause she's always so glad,  
To tell me the weather when I ask my iPad.  
It's never a bother for her to chime in,  
When I ask, hopefully, "Did the Cubs win?"

If my screen cracks -  
If my disk croaks -  
If my backups fail,  
I simply remember my nerdiest things,  
And then I check myyyyyy eeeeeee-mail!

My thumb drive is loaded with files to hang onto.  
Old PCs I find are soon running Ubuntu.  
I'm always updated, I'm never behind  
On versions of apps of the iOS kind!

Friends who use Windows are subjects of pity.  
I'd never use an OS that's so shitty.  
They secretly envy my shiny iMac!  
And once you go Mac, you will never go back!

When the Web's slow -  
A Netflix show -  
Might not stream so well.  
But then I remember my nerdiest things,  
Plus, I'm not in Winnnnnn-dows Hell!
