Tonight’s Topics

- Making and sharing PDFs the fun and easy way
  - On your Mac
  - On your iPhone or iPad

Remember!

- The presentation of tonight’s meeting will soon be available to download from our Archives website, in both Keynote and PDF format
- Visit CoveAppleClubArchives.com

Virtual Meeting Housekeeping

- Please keep your microphone muted throughout the meeting
- We’ll do a quick Q&A at the end of each topic
- You can have your video on or off

After the meeting

- We’ll keep the connection open until 9pm ET, so we can all chat as if we were back at Cheeks!
- Grab an adult beverage and yak it up – virtually – after the meeting!

Making and Sharing PDFs the Fun & Easy Way

Making and Sharing PDFs the Fun & Easy Way

PDFs: What are they?

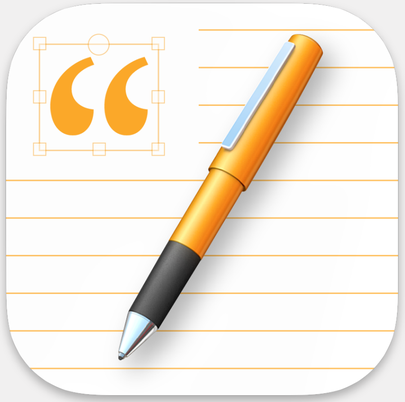
- PDF: Portable Document Format
- Created by Adobe in 1993, now an international standard (ISO 32000)
- Cross-platform document interchange format – independent of hardware, software or operating system
- As an ISO standard, no royalties are required to create or use PDFs

Making and Sharing PDFs the Fun & Easy Way

PDFs: Very handy, free & ubiquitous

- Each PDF is a self-contained description of a fixed-layout flat document, including text, fonts, images, hyperlinks, form fields, video, audio, 3D images, and even other file attachments
- PDFs can be encrypted to securely send rich documents across unsecured links
- Every version of macOS, going back to OS X 1.0 in 2001, included built-in PDF creation and viewing/editing tools
- Every iPhone & iPad can also create and view PDFs using built-in tools

PDFs: What are they good for?



You create an invoice using Pages on your Mac

You export your invoice to PDF to send to your client

You send the invoice as a file attachment in Mail

Your client can open, view and print the invoice on their Windows PC

Other neat things about PDFs

Probably more than you ever wanted to know

- PDFs created in 1993 can still be opened today – guaranteed backwards compatibility with older files
- PDFs are highly compressed, and save space and transmit time when sent by email, message or stored on disk
- The Preview app on Mac lets you do dozens of things with PDFs, which would be a whole night's topic by itself
- And there are dozens of 3rd-party PDF apps for Mac and iOS as well!

Preview app on macOS
