SMARTPHONES & TABLETS

I've always been a fan. Mind if I take a selfie?

A large, solid red Apple logo is centered in the background. It has a bite taken out of the right side and a single leaf at the top. The logo is set against a blurred, warm-toned background of gold and brown.

Pixelmator Pro

Available on the Mac App Store for \$39.99.

Remove the background from any image with just a click.

The jaw-dropping, Core ML-powered Remove Background feature removes the background from any image with just a click. Using a combination of machine-learning algorithms, Pixelmator Pro automatically selects the subject, refines the edges of the selection, then removes any traces of the previous background from the object's edges.

Choose a workspace that works for you.

Customize the Pixelmator Pro workspace to make it work for you — move the Tools and Layers sidebars wherever you want and completely customize the list of tools. Or choose one of the built-in presets created especially for photographers, designers, painters, and illustrators.

We Love Ya,
Mike!

Thank you for all you do. It's
appreciated more than you know.

You've piloted our club to new highs!
And don't think that it hasn't been
noticed. We look forward to more of
your creative and informative talents.

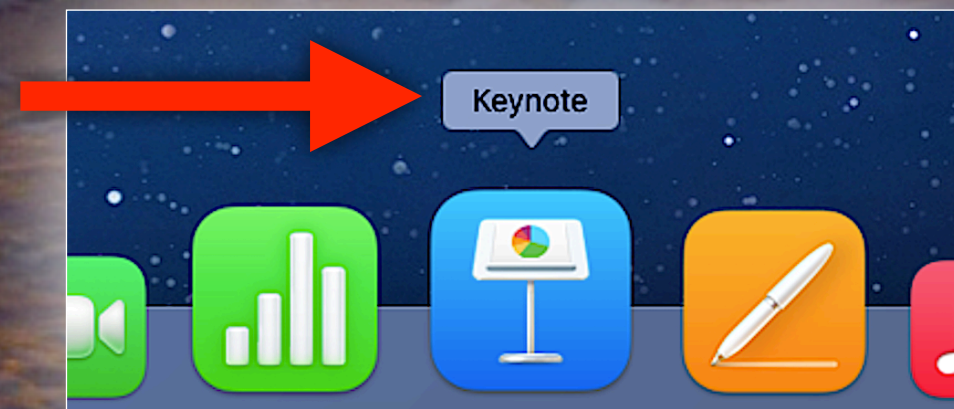

Life

*Our life is but a passing phase
That's measured in brief years,
But time itself will end some day
Along with all our tears.*

*For how we treat our fellow man
Is what it's all about.
It's not the wealth or fleeting fame
Of which we should dare tout.*

*And He who judges how we've lived
Will rate the life we've led...
By things we've done, by how we've loved,
And by the things we've said.*

*It's kindness, fairness, love and truth.
It's faith that good prevails,
And trust that God is here to be
Of help when all else fails.*

Happy Birthday!

Wishing you our
Very Best for
This Birthday,
And All to Come!
